Business *Can* be simple

## Powerful Productivity Tools for Small Offices and Corporate Workgroups

Superior and Affordable Copying Capabilities for Today's Office Workflow

The new **imageRUNNER 2116J** is designed to optimize office productivity by providing a benchmark performance, exceptional value and an extensive range of accessories that will enable users to select the most appropriate solution for their needs. With 16 pages per-minute output speeds, Canon offers a new model of copier to suit your office needs.

The new **imageRUNNER 2116J** in a compact size boasts a range of product enhancements to help increase productivity, reduce the cost of document production and distribution for small offices and workgroup environments.

## Digital Multifunction

Cutting Edge Image Processing Technology

### ■ Scan-Once-Print-Many

Fully leverages the inherent digital features of the device by making copies from images stored in memory, resulting in reduced scanner wear and tear.

### ■ Concurrency

Elevates overall multifunction capabilities by synchronizing scanner, image processor and engine operation. For an example, users can store copy jobs in memory while machine is printing. Hence improving productivity by allowing you to return to work immediately, and eliminating lines at the copier.

### ■ Two-Page Separation

Enables you to copy facing pages of a book or bound document onto two separate sheets of copy paper.

### ■ Image Combination

Enables you to save paper, filing space and fax transmission expenses by combining up to 4 separate originals onto a single sheet of copy paper.

### ■ High Image Quality Copy Output

Every original is scanned at 600 dpi for copies that are amazingly faithful to the original. A host of image and document manipulation features can be accessed through the user-friendly control panel, making it easy to produce professional-looking documents.

### ■ Optional Automatic Duplexing

The new imageRUNNER 2116J features optional trayless duplexing with an all-new integrated duplexing unit that provides two-sided printing. Hence enabling you to save paper costs.

### ■ Vertical Paper Path

The new imageRUNNER 2116J employs a vertical paper path. This shorter, straighter paper path minimizes the potential for paper feeding jams and contributes to the compact footprint of the main unit. By consolidating the paper feed path on the left side of the main unit enables all maintenance operations such as removing paper jam with ease from the left side. Printing efficiency is also enhanced with the shorter paper path.

### ■ Smart Design and Space Saving Internal Finisher

The new image RUNNER 2116J also comes with an optional internal finisher that provides up to 50-sheets stapling while preserving the original footprint of the system. Offering basic stapling and collating features, these also helps to create professional-looking finished documents.

#### Stacking Modes

## ***High-End Productivity for Low Volume Users*** ***Flexible Design Allows a Seamless Configuration***

### ■ **Rapid Fusing System™**

Canon's RAPID Fusing System™ utilizes a durable film medium and a highly efficient ceramic heater, which serves to "fix" toner onto paper through heat transfer. This technology helps shorten warm-up times while keeping energy consumption costs to a minimum.

### ■ **Department ID & Control Cards**

By activating the Department ID mode, the machine is restricted to those users with a valid ID and password for operations. This standard capability of the imageRUNNER 2116j permits for the creation of up to 100 accounts with passwords. The optional control card and card reader can also manage the machine by granting access to functions.

### ■ **Maximum Input Capacity**

An array of paper cassettes can be installed on the new imageRUNNER 2116j for your requirement.

The new imageRUNNER 2116j comes standard with a 250 sheets paper cassette. An additional of up to 750 sheets of paper capacity (three 250-sheet cassettes) can be added, boosting the total paper capacity of up to 1,080 sheets.

# SPECIFICATIONS imageRUNNER 2116J

Main Unit	
Type:	Digital Multifunctional Imaging System
Developing System:	Laser Dry Electrostatic Transfer System
Image Server Memory:	Standard 128MB RAM
First-Copy Time:	7.9 seconds (A4)
Warm-Up Time:	13 seconds or Less
Copy Speed:	16 ppm (A4)
Copy Resolution:	600 x 600 dpi, 1200 (Equivalent) dpi x 600 dpi
Halftone:	256 Gradations of Gray
Duplexing:	Optional Automatic Duplexing
Magnification:	50 to 200% (in 1% increment)
Paper Sources	
Standard:	<b>Front-loading Cassette</b> 250 sheets x 1 Bypass Tray 80 sheets
Maximum:	<b>Paper Cassettes</b> 250 sheets x up to 3
Multiple Copies:	1 to 99 sheets
Dimensions (H x W x D):	580.4 x 622 x 633.4mm
Weight:	39.6 KG
Power Requirements:	230V/6A/50Hz
Power Consumption:	1.60kW or less
Toner Yield:	Approx 8,300 sheets equivalent (A4 6%)
Drum Yield:	55,000 sheets

Optional Accessories	
<b>Duplexing Automatic Document Feeder- P2</b>	
Acceptable Originals:	A5 to A3
Capacity:	50 sheets (A4/ 80g/m <sup>2</sup> )
Max. Paper Weights:	52 to 105 g/m <sup>2</sup> (A4)
<b>Finisher- U2 *</b>	
Number of Trays:	1 Stack Tray
Stacking Capacity:	770 sheets
Staple Position:	Corner
Max. Stapling Capacity:	50 Sheets
Paper Weights:	64 to 128g/m <sup>2</sup>
<b>Cassette Feeding Module- J1</b>	
Paper Capacity:	1 x 250-sheet Paper Cassettes
Paper Sizes:	B5R to A3
<b>Cassette Feeding Module- K1*</b>	
Paper Capacity:	2 x 250-sheet Paper Cassettes
Paper Sizes:	B5R to A3
<b>Additional Optional Accessories and Utilities</b>	
Platen Cover Type- J	
Duplex Unit- A1	
Card Reader Kit- D1	
Card Reader- E1	
Document Tray- J1	
Serial Interface- A1	
* Power Supply Kit- Q1 is Required
